

All Warren residents must file annual city income tax returns by April 15th of each year, whether or not they (city taxes) have been fully withheld and/or have paid a municipal income tax to another community. We receive many questions from residents and, as a result, we have listed several popular questions:

What is Warren’s tax rate and what type of income is taxable?

Warren’s current tax rate is 2%. Generally, gross income (including income which is deferred) and business net profits are taxable. Click on the following link for a [list of taxable and non-taxable income](#).

I am a Warren resident and work in an area with no municipal tax or where the tax withheld is lower than Warren’s 2% rate. When do I pay Warren the difference?

You should file a form D1 (Declaration of Estimated Income Tax) (by April 15th). On the form, you must estimate the amount of tax you will owe for the year. One-fourth (1/4) of the estimate must be paid with the Form D1. Subsequent payments are due July 31, October 31, and January 31 (following year). Due dates are different for non-individuals filing the form D1.

Is it possible to amend my estimate during the year?

Yes. Complete form Q1 and fill in “Amended Estimated Tax” with amended amount.

Is there an age limit for individuals subject to Warren Income Tax?

Yes. All individuals under sixteen (16) years of age are exempt from City of Warren income tax and are eligible for a refund of Warren income tax withheld.

I am retired. My only income is from social security, company pension, interest and dividends. Am I required to file a City of Warren income tax return?

No. You are not required to file an income tax return with Warren, nor are you taxed by Warren on those types of income. However, you must file an exemption certificate with us so we will not send you income tax return forms in future years. You still must file a Warren income tax return if you have other taxable income (i.e., wages, rental income, etc.).

If an individual files late, is there a penalty?

Yes. Without an extension, there is a \$30.00 late filing fee. Additionally, there is a late payment penalty of up to 15% of the unpaid tax balance and interest is assessed at 1 ½ % per month of the unpaid tax balance. Remember that filing an extension *does not* extend the time to pay, only the time to file.
