News

Responsible Restart Ohio Plan

On Monday, April 27th, the state announced the outline for the gradual restart of the Ohio economy during the remained of the COVID-19 pandemic.

Healthcare:

- May 1st: all medically necessary procedures that do not require an overnight stay, inpatient hospital admission, or excessive PPE use may move forward. Lifesaving procedures have/will always be permitted.

Responsible Restart Ohio:

Businesses may reopen if they are able to meet the Responsible Protocols outlined at the Responsible Restart Ohio Site (and on page 3 of this newsletter) according to the following schedule:

- May 4th:
  - Manufacturing, distribution, and construction businesses
  - General office environments
- May 12th:
  - Consumer, retail and services

Stay at home orders are still in effect, large gatherings of 10 or more people are still prohibited, and other businesses are still ordered to remain closed for the time being. More information can be found at the Responsible Restart Ohio website.

Grocery Ordering and Delivery for Seniors

Comfort Care-a-Van is now offering a grocery ordering and delivery service for seniors in the Mahoning, Trumbull and Columbiana counties. Grants cover the operational costs so the only thing seniors would need to pay is their ordinary grocery costs. More information can be found here. Seniors can either fill out the online form or call them at 330-747-3541.
For the State of Ohio:

All dates are based when an indicator is reported and will not match data in other COVID-19 dashboards provided by the Ohio Department of Health. All other dashboards are based on onset date, date of hospitalization, or date of death.

For Trumbull County:

**State of Ohio | COVID - 19 Dashboard**

**Metrics | Cumulative and Daily Count**

- **Cases**: 295
- **Hospitalizations**: 113
- **Deaths**: 27
COVID-19 Back to Work Responsible Protocols

The state has released guidelines to follow for the gradual reopening of businesses [here](#).

**5 PROTOCOLS FOR ALL BUSINESSES:**

1. **Recommend face coverings** for employees and clients/customers.
2. **Conduct daily health assessments** by employers and employees (self-evaluation) to determine if “fit for duty.”
3. **Maintain good hygiene** at all times – hand washing, sanitizing and social distancing.
4. **Clean and sanitize** workplaces throughout workday and at the close of business or between shifts.
5. **Limit capacity** to meet **social distancing** guidelines.
   a. Establish maximum capacity at 50% of fire code.
   b. And, use appointment setting where possible to limit congestion.

**TAKE THE FOLLOWING ACTIONS WHEN A COVID-19 INFECTION IS IDENTIFIED:**

- **Immediately report** employee or customer infections to the local health district.
- Work with local health department to identify potentially exposed individuals to help facilitate appropriate communication/**contact tracing**.
- **Shutdown** shop/floor for deep sanitation is possible.
- Professionally clean and sanitize site/location.
- Reopen in consultation with the local health department.

**COVID-19 Resources for Non-Native English Speakers**

Harvard Health Publishing has teamed up with physicians and medical school faculty members to produce a series of COVID-19 fact sheets in 35 different languages. This includes general, age specific, and pregnancy specific information in a series of easy to read handouts. [Check out their site here](#) to get these handouts.
COVID-19 Mental Health Careline

The Ohio Department of Mental Health and Addiction Services (MHAS) announced the launch of a new mental health COVID careline for Ohioans. Trained staff will be available to provide emotional assistance to anyone struggling with mental health concerns due to the ongoing stress of the pandemic. All calls will be confidential.
